		Occurrence Date: 04/16/2000		Most Critical Injury: Serious	
		Occurrence Type: Accident		Investigated By: NTSB	
Location/Time					
Nearest City/Place IMMOKALEE		State FL	Zip Code 34142	Local Time 1100	Time Zone EDT
Airport Proximity: On Airport		Distance From Landing Facility:		Direction From Airport:	
Aircraft Information Summary					
Aircraft Manufacturer Bellanca		Model/Series 8KCAB		Type of Aircraft Airplane	
Sightseeing Flight: No			Air Medical Transport Flight: No		
Narrative					
<p>Brief narrative statement of facts, conditions and circumstances pertinent to the accident/incident:</p> <p>On April 16, 2000, about 1100 eastern daylight time, a Bellanca 8KCAB, N238DM, owned by a private individual, impacted with the ground while landing at the Immokalee Airport, Immokalee, Florida. Visual meteorological conditions prevailed at the time, and no flight plan was filed for the 14 CFR Part 91 personal flight. The airplane was substantially damaged. The commercial-rated pilot and one passenger reported serious injuries. The flight had departed from the same airport, at 1000.</p> <p>The flight was landing on runway 18. According to the airport manager, the pilot was doing spot landings, and landed short of the runway. The airplane came to rest on runway 18.</p> <p>According to the pilot, he had stayed in the local traffic pattern, and was doing some landings, when he elected to depart the traffic pattern to do some local flying. Upon return to the airport he said, "...I made a normal approach and normal speed. About 25 to 50 feet [above the ground], the bottom dropped out coming down hard on [the] landing gear 6 feet short of [the] runway. Ground was soft, pitching the plane on its nose."</p> <p>According to the FAA inspector's statement the pilot "...did not report any mechanical problems."</p>
